Joanna,

I suggest that you call Ex. 6 - Personal Privacy and explain to him our issue with sampling on Fridays and see what we can work out. Let us know if Kelley or I should get involved. We might be able to make an exception....but let's see if it works out for him to come on another day.

OK?

thanks. Rich

In short yes. The lab has to have some one come on Saturday to accept the samples. They have asked that we refrain shipping samples on Friday to avoid this complication. Given the extraordinary level of effort the lab has shown I strongly recommend on not shipping samples on Fridays. Further we have told the lab we would not send samples on Fridays during our second sampling activity.

Hi Rich,

In Jan and Feb we had sampled on Fridays and had no issues.

I am sure you are aware, but we currently have planned for sampling on Mon and Tues. Several of the personnel have

return flights scheduled for Wed. If we sample on Friday we will need to modify their return flights to Sat. Please let me know if I should make those arrangements.

Thanks,

Rich,

Does a Friday sample cause a problem with the lab...etc?

Let me know.

John just told me that you don't want to sample on Fridays. He asked for this time because he lives in the Philly area. What do you think?

Joanna,

Enclosed are the executed documents that you sent. We would like to set up our appointment for Friday March 9th at 1PM. My wife  will meet you at our home in Dimock. At your convenience please confirm. Let me know if you need anything else.

Many thanks!

Best,

I have both days open and don't anticipate them filling up any time soon. That week was help open for people we couldn't get during the first four weeks. Please put both of your addresses on the access form. Thanks.

Hi Joanna,
Thanks for your note. My mother is doing much better, thank you

If you could go ahead and send the well survey, etc. I can get that started. Let me check schedules so that we can arrange to connect in Dimock. Is it possible to hold time on both the 8th and 9th until we confirm? Please advise.

Best,
